

System pontoons 2400T

The newly improved **System pontoons 2400T** is popular and inexpensive timber deck pontoons with plastic tube floats. They are designed for mooring of small boats in sheltered marinas. They also fit well for swimming pontoons and for general purpose use in shallow waters and in tidal locations where the sea bed dries out. The construction is fully modular and light making it easy to transport and simple to install. The pontoons can be fitted with boat mooring booms.

TECHNICAL DATA

Plastic tube floats: Polyethylene

Frame: Treated pine

Decking: Treated and grooved, 28x120 mm pine

Standard features: Fully prefabricated and hinged system

Optional accessories: Cable tray, timber fenders, composite fenders

Plastic tube T400

Diameter: 400 mm
Length: 6000/12000 mm
Weight: 60/120 kg
Net capacity: 690/1380 kg

STANDARD PONTOON ELEMENTS	E2406T	E2412T	LAYOUT
Length (m)	6,2	12,4	System E2406T
Width (m)	2,4	2,4	
Plastic tube (no.)	2	2	System E2412T
Weight (kg)	590	1180	
Total capacity (kN/m ²)	0,93	0,93	
Net capacity (kN/m ²)	0,60	0,60	
Freeboard (m)	0,45	0,45	

In addition to the above mentioned sizes, elements of special dimensions and capacities

Exact unit weight and freeboard are subjects to detailed specification of the unit, equipment and mooring methods. Shown numbers are for standard and unloaded units.
